Charter FIRST - Rating Worksheet Dated June 2023 for Rating Years 2023-2024+

Fiscal Year Ended June 30, \_\_\_\_\_, or August 31, \_\_\_\_\_

## Charter FIRST Worksheet based on Fiscal Year End Data

<u>Indicator Number</u>	<u>Critical Indicators</u>	<u>Pass</u>	<u>Fail</u>
<u>1</u>	Was the complete annual financial report (AFR) and charter school financial data submitted to TEA within 30 days of the November 27 or January 28 deadline depending on the charter school's fiscal year end date of June 30 or August 31, respectively?	<u>Yes</u>	<u>No</u>
<u>2</u>	Was there an unmodified opinion in the AFR on the financial statements as a whole? (The American Institute of Certified Public Accountants (AICPA) defines unmodified opinion. The external independent auditor determines if there was an unmodified opinion.)	<u>Yes</u>	<u>No</u>
<u>3</u>	Was the charter school in compliance with the payment terms of all debt agreements at fiscal year end? (If the charter school was in default in a prior fiscal year, an exemption applies in following years if the charter school is current on its forbearance or payment plan with the lender and the payments are made on schedule for the fiscal year being rated. Also exempted are technical defaults that are not related to monetary defaults. A technical default is a failure to uphold the terms of a debt covenant, contract, or master promissory note even though payments to the lender, trust, or sinking fund are current. A debt agreement is a legal agreement between a debtor (person, company, etc. that owes money) and their creditors, which includes a plan for paying back the debt.)	<u>Yes</u>	<u>No</u>
<u>4</u>	Did the charter school make timely payments to the Teacher Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies? <b>If the charter school received a warrant hold and the warrant hold was not cleared within 30 days from the date the warrant hold was issued, the charter school is considered to not have made timely payments and will fail this indicator. If the charter school was issued a warrant hold, the maximum points and highest rating that the charter school may receive is 95 points, A = Superior Achievement (even if the issue surrounding the initial warrant hold was resolved and cleared within 30 days).</b>	<u>Yes</u>	<u>No</u>
<u>5</u>	Was the total net asset balance in the Statement of Financial Position for the charter school greater than zero? (If the charter school's increase of students in membership over 5 years was 7 percent or more, then the charter school passes this indicator.) (New charter schools that have a negative net asset balance will pass this indicator if they have an average of 7 percent growth in students year over year until it completes its fifth year of operations. After the fifth year of operations, the calculation changes to the 7 percent increase in 5 years.) <b>(If the charter school passes indicator 5 based only on the charter school's 7 percent or more increase in students in membership, the maximum points and highest rating that the charter school may receive is 79 points, C = Meets Standard Achievement.)</b>	<u>Yes</u>	<u>No</u>

<u>Indicator Number</u>	<u>Solvency Indicators</u>	<u>Points</u>
<u>6</u>	Was the average change in total net assets over 3 years less than a 25 percent decrease or did the current year total net asset balance exceed 75 days of operational expenditures [(total expenditures less depreciation) /365]*75 days? <b>(If the charter school fails indicator 6, the maximum points and highest rating that the charter school may receive is 89 points, B = Above Standard Achievement.)</b>	<u>Ceiling Indicator</u>
<u>7</u>	Was the number of days of cash on hand and current investments for the charter school sufficient to cover operating expenses? The calculation will use expenses, excluding depreciation. (See ranges below.)	<u>10</u>
<u>8</u>	Was the measure of current assets to current liabilities ratio for the charter school sufficient to cover short-term debt? (See ranges below.)	<u>10</u>

9	Did the charter school's revenues equal or exceed expenses, excluding depreciation? If not, was the charter school's number of days of cash on hand greater than or equal to 40 days? The calculation will use expenses, excluding depreciation. For government charter schools, pension expense will be excluded.	5
10	Did the charter school average less than a 10 percent variance (90%-110%) when comparing budgeted revenues to actual revenues for the last 3 fiscal years?	10
11	Was the ratio of long-term liabilities to total assets for the charter school sufficient to support long-term solvency? (If the charter school's increase of students in membership over 5 years was 7 percent or more, then the charter school passes this indicator.) (New charter schools that have a negative net asset balance will pass this indicator if they have an average of 7 percent growth in students year over year until it completes its fifth year of operations. After the fifth year of operations, the calculation changes to the 7 percent increase in 5 years.) (See ranges below.)	10
12	Was the debt service coverage ratio sufficient to meet the required debt service?	10
13	Did the charter school have a debt-to-capitalization percentage that was reasonable for the charter school to continue operating?	5
14	Was the charter school's administrative cost ratio equal to or less than the threshold ratio? (See ranges below.)	10
15	Did the charter school <b>not</b> have a 15 percent decline in the students to staff ratio over 3 years (total enrollment to total staff)? (If the student enrollment did not decrease, the charter school will automatically pass this indicator.)	10

<b>Indicator Number</b>	<b>Financial Competence Indicators</b>	<b>Points</b>
16	Was the charter school's actual average daily attendance (ADA) within 10 percent of the charter school's annual estimated ADA?	5
17	Did the comparison of Public Education Information Management System (PEIMS) data to like information in the charter school's AFR result in a total variance of less than 3 percent of all expenses by function? <b>(If the charter school fails indicator 17, the maximum points and highest rating that the charter school may receive is 89 points, B = Above Standard Achievement.)</b>	<b>Ceiling Indicator</b>
18	Did the external independent auditor report that the AFR was free of any instance(s) of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds and free from substantial doubt about the charter school's ability to continue as a going concern? (The AICPA defines material weakness.) <b>(If the charter school fails indicator 18, the maximum points and highest rating that the charter school may receive is 79 points, C = Meets Standard Achievement.)</b>	<b>Ceiling Indicator</b>
19	Did the external independent auditor indicate the AFR was free of any instance(s) of material noncompliance for grants, contracts, and laws related to local, state, or federal funds? (The AICPA defines material noncompliance.)	10
20	Did the charter school post the required financial information on its website in accordance with Government Code, Local Government Code, Texas Education Code, Texas Administrative Code and other statutes, laws and rules that were in effect at the charter school's fiscal year end?	5
21	Did the charter school receive an adjusted repayment schedule for more than one fiscal year for an over-allocation of Foundation School Program (FSP) funds because of a financial hardship? <b>(If the charter school fails indicator 21, the maximum points and highest rating that the charter school may receive is 70 points, C = Meets Standard Achievement.)</b>	<b>Ceiling Indicator</b>

<b>Ceiling Indicators</b>		
Did the charter school meet the criteria for any of the following ceiling indicators 4, 5, 6, 17, or 18? If so, the charter school's applicable maximum points and rating are disclosed below.		
<b>Determination of rating based on meeting ceiling criteria.</b>	<b>Maximum Points</b>	<b>Applicable Rating</b>
<b>Indicator 4</b> (Timely Payments) - Charter school was issued a warrant hold.	95	A = Superior Achievement
<b>Indicator 5</b> (Total Net Assets) - Negative total net assets and pass indicator based only on 7% or more increase in students in membership over 5 years.	79	C = Meets Standard Achievement
<b>Indicator 6</b> (Average Change in Total Net Assets) - Response to indicator is <i>No</i> .	89	B = Above Standard Achievement
<b>Indicator 17</b> (PEIMS to AFR) - Response to indicator is <i>No</i> .	89	B = Above Standard Achievement
<b>Indicator 18</b> (Material Weaknesses and/or Going Concern) - Response to indicator is <i>No</i> .	79	C = Meets Standard Achievement
<b>Indicator 21</b> (FSP Payment Plan) - Response to indicator is <i>Yes</i> .	70	C = Meets Standard Achievement

If the charter school's overall points earned is less than the maximum points allowed by the applicable ceiling indicator, the charter school will receive a rating based on the lesser points earned. If the charter school fails a critical indicator or the charter school's total number of points is equal to or less than 69 points, the charter school will receive an **F = Substandard Achievement** rating, regardless of any ceiling indicator criteria met.

***Examples of the points and rating that a charter school may earn when the criteria of a ceiling indicator is met:***

<b>Example 1:</b> Your charter school fails ceiling indicator 18 and your charter school's total points before failing ceiling indicator 18 is 98 points, the maximum points and rating that your charter school may receive is 79 points, C = Meets Standard Achievement.
<b>Example 2:</b> Your charter school fails ceiling indicator 6 and your charter school's total points before failing ceiling indicator 6 is 86 points, the maximum points and rating that your charter school may receive is 86 points, B = Above Standard Achievement, <b>not</b> 89 points, B = Above Standard Achievement.
<b>Example 3:</b> Your charter school fails critical indicator 4 and ceiling indicator 17 and your charter school's total points before failing indicators 4 and 17 is 67 points, the maximum points and rating that your charter school may receive is 67 points, F = Substandard Achievement.
<b>Example 4:</b> Your charter school fails Part 1 of indicator 5, but passes critical indicator 5 based on Part 2, the charter school's 7% or more increase in growth in students in membership over 5 years. Your charter school's total points before passing indicator 5 solely on Part 2 of the indicator is 100 points, the maximum points and rating that your charter school may receive is 79 points, C = Meets Standard Achievement.
<b>Example 5:</b> Your charter school received a warrant hold (Indicator 4) that was cleared within 30 days from the date that the warrant hold was issued and the charter school's total points is 90 points before any ceiling deduction. The maximum points and rating that your charter school may receive is 90 points, A = Superior Achievement because the total points is less than the ceiling of 95 points.

<b>Determination of Charter School Rating</b>	
Did the charter school fail any of the critical indicators 1, 2, 3, 4, or 5 (parts 1 and 2)? If so, the charter school's rating is F for Substandard Achievement regardless of points earned.	
<b>Determine the rating by the applicable number of points.</b>	<b>Points</b>
<b>A = Superior Achievement</b>	90 through 100
<b>B = Above Standard Achievement</b>	80 through 89
<b>C = Meets Standard Achievement</b>	70 through 79
<b>F = Substandard Achievement</b> (The charter school receives an F if it scores below the minimum passing score, if it failed any critical indicator 1, 2, 3, 4, or 5, if the AFR or the data were not both complete, or if either the AFR or the data were not submitted on time for FIRST analysis.)	0 through 69

16	Was the charter school's actual average daily attendance (ADA) within 10% of the charter school's annual estimated ADA?	$(A - B) / B < 10\%$ , where A = Actual Average Daily Attendance (ADA) B = Estimated Average Daily Attendance (ADA)
17	Did the comparison of Public Education Information Management System (PEIMS) data to like information in the charter school's AFR result in a total variance of less than 3 percent of all expenses by function?	$(A / B) < C$ , where A = Sum of the absolute values of all differences in expenses (determined by function) between the Statement of Activities and PEIMS B = Sum of expenses for all expenses presented in the Statement of Activities C = Threshold for percentage of data variance, which = 3%
18	Did the external independent auditor report that the AFR was free of any instance(s) of material weaknesses in internal controls over financial reporting and compliance for local, state, federal funds and free from substantial doubt about the charter school's ability to continue as a going concern? (The AICPA defines material weakness.)	No calculation involved
19	Did the external independent auditor indicate the AFR was free of any instance(s) of material noncompliance for grants, contracts, and laws related to local, state, or federal funds? (The AICPA defines material noncompliance.)	No calculation involved
20	Did the charter school post the required financial information on its website in accordance with Government Code, Local Government Code, Texas Education Code, Texas Administrative Code and other statutes, laws and rules that were in effect at the charter school's fiscal year end?	No calculation involved
21	Did the charter school receive an adjusted repayment schedule for more than one fiscal year for an over-allocation of Foundation School Program (FSP) funds because of a financial hardship?	No calculation involved
