

## Part B Clarification Changes 2021 Texas

For any data revisions or uploaded 508 compliant documents, please provide the Indicator and Description of Change in the below table, and upload the form as an attachment to the Introduction page:

Indicator	Description of Change
SPPI 4a	The number of LEAs excluded from the calculation has been corrected. The total number of LEAs used to calculate SPPI 4a was incorrect. TEA will build in a verification process between the data team and the reporting team prior to SPP/APR submission.
SPPI 4b	<p>The number of LEAs excluded from the calculation has been corrected. The total number of LEAs used to calculate SPPI 4b was incorrect. TEA will build in a verification process between the data team and the reporting team prior to SPP/APR submission.</p> <p>The data was calculated correctly but the description in the <b>State’s definition of “significant discrepancy” and methodology</b> was not described accurately. The description has been corrected.</p>
SPPI 7	Upon further investigation some LEAs did not enter data for all three measurements. We determined that the data submitted is accurate. There was a problem with the data entry program. We have worked with the program developers and as of now LEAs will not be able to submit their data if any elements are missing.
SPPI 8	<p>The description of strategies that were implemented to increase response rate year over, for groups that are underrepresented has been edited to accurately and correctly reflect strategies the State took to increase response rates for underrepresented groups.</p> <p>Addressed required actions.</p>
SPPI 9	The number of LEAs excluded from the calculation has been corrected. The total number of LEAs used to calculate SPPI 9 was incorrect. TEA will build in a verification process between the data team and the reporting team prior to SPP/APR submission.
SPPI 10	The number of LEAs excluded from the calculation has been corrected. The total number of LEAs used to calculate SPPI 10 was incorrect. TEA will build in a verification process between the data team and the reporting team prior to SPP/APR submission.
SPPI 13	The description for the correction of noncompliance has been edited to accurately and correctly reflect the steps the State requires LEAs to take to correct noncompliance.
SPPI 14	The description of strategies that were implemented to increase response rate year over, for groups that are underrepresented has been edited to accurately and correctly reflect strategies the State took to increase response rates for underrepresented groups.

Please Note: Any changes documented on this form must also be made in the specific Indicator in the SPP/APR reporting platform.
