Summary of Program

Describe the proposed National Board Candidacy Cohort to be implemented with grant funds. Include the overall mission and specific needs of the organization as they relate to teacher retention and effectiveness. Describe how the National Board Candidacy Cohort will address the organization's mission and needs.

The Alamo Heights ISD will form a cohort to support selected teachers in their pursuit of National Board certification (NBCT). The cohort will have 10 teachers, with the goal of completing NBCT within two years. Alamo Heights will enter into agreement with ESC, Region 20, to provide cohort support for content coaching; and component coaching, mentoring, and support.

Research shows that students of National Board-certified teachers learn more than students of their peers without National Board certification. Studies have also found that the positive impact of having a National Board-certified teacher is even greater for minority and low-income students. As our district strives to improve academic outcomes for our at-risk students, we feel that helping our teachers reach NBCT certification will have a demonstrable impact on our students' academic growth and performance.

It's no secret that districts with National Board Certified Teachers are characterized by better teacher morale and retention, and increased community involvement. One of our four strategic priorities is to increase teacher recognition and sense of belonging. We believe that providing a pathway to NBCT will demonstrate our commitment to investing in our teachers, and to increasing their professional stature. We expect that our commitment to recognition and belonging will have a positive impact on teacher retention rates.

A final consideration is our horizontal leadership structure at Alamo Heights ISD. To permit more staffing in our classrooms, and to provide more time for instructional design, we have a lean management structure; with admin-to-teacher ratios much lower than comparable districts. Having more NBCT teachers on our campuses will provide additional teacher leadership, and thus drive continual improvement in teaching and more profound student learning.

Goals, Objectives, and Strategies

Referring to the program-specific assurances and performance and evaluation measures within the program guidelines, describe the major goals/objectives of the proposed National Board Candidacy Cohort. Describe activities/strategies that will be implemented to meet those goals/objectives.

Major Goal:

To have 10 newly-certified NBCT teachers in our district within two years.

Sub-Goals to achieve Major Goal:

-Form a cohort consisting of ten teachers to support these teachers in completing the NBCT. The cohort will provide unity and pacing for NBCT candidates.

-Provide ample content coaching in three content areas to assist NBCT cohort members in passing their respective content exams.

-Provide ample component coaching, mentoring, and support to help cohort members through the process of portfolio preparation and submission.

Performance and Evaluation Measures

Describe the plan for collecting, evaluating, and responding to data on performance measures identified for this grant. Include the descriptions of tools used to measure and evaluate performance, as well as the processes that will be used to ensure the effectiveness of the National Board Candidacy Cohort objectives and strategies.

In the near term, Academic Deans and the Director of Human Resources will monitor progress of cohort members toward their pursuit of NBCT. The pacing suggested by the National Board will be used as a metric, along with the health and regular teaching performance of cohort members.

AHISD NBCT-certified mentor will monitor attendance at cohort activities, and will track completion of course objectives. The mentor will report this information to the Director of Human Resources.

Once the teachers obtain their NBCT, we'll evaluate student performance to measure increases in academic performance for the teacher's students, comparing one year's students to the next. We'll compare benchmarks to semester assessments and STAAR testing results.

We will also be observant for indications of increased student performance for NBCT teachers when compared to teachers across the grade level. We will compare benchmarks to semester assessments based on familial TEKS, and STAAR testing.
