Schedule #1—General Information County-district number or vendor ID: 020902 Part 3: Schedules Required for New or Amended Applications Amendment # (for amendments only):

An X in the "New" column indicates a required schedule that must be submitted as part of any new application. The applicant must mark the "New" checkbox for each additional schedule submitted to complete the application. For amended applications, the applicant must mark the "Amended" checkbox for each schedule being submitted as part of the amendment.

| Schedule | Schedule Name | Applicat | Application Type | | |

*IMPORTANT NOTE FOR COMPETITIVE GRANTS: Schedules #7, #8, #9, #10 and #11 are required schedules if any dollar amount is entered for the corresponding class/object code on Schedule #6—Program Budget Summary. For example, if any dollar amount is budgeted for class/object code 6100 on Schedule #6—Program Budget Summary, then Schedule #7—Payroll Costs (6100) is required. If it is either blank or missing from the application, the application will be disqualified.

Schedule #3—Certification of Shared Services County-district number or vendor ID: Amendment # (for amendments only):

I, as one of the below member entity authorized officials, certify that to the best of my knowledge, the information contained in this application is correct and complete, that the entity that I represent has authorized me to file this application, and that such authorization action is recorded in the minutes of the local agency's board meeting.

The participating or intermediate education agency named has been designated as the administrative and fiscal agent for this project and is authorized to receive and expend funds for the conduct of this project. The fiscal agent is accountable for all shared services arrangement (SSA) activities and is therefore responsible for ensuring that all funds including payments to members of SSAs are expended in accordance with applicable laws and regulations.

All participating agencies have entered into a written SSA agreement that describes the responsibilities of the fiscal agent and SSA members, including the refund liability that may result from on-site monitoring or audits and the final disposition of equipment, facilities, and materials purchased for this project from funds specified below.

It is understood that the fiscal agent is responsible for the refund for any exceptions taken as a result of on-site monitoring or audits; however, based upon the SSA agreement, which must be on file with the fiscal agent for review, the fiscal agent may have recourse to the member agencies where the discrepancy(ies) occurred.

Any additional funds that result from an increase will not require additional signatures. Each member identified below acknowledges accountability for the requirements contained in the provisions and assurances listed in Schedule #2, Parts 2 and 3, as applicable. Each member entity certifies its agreement to participate in this SSA, as stated throughout this grant application.

| Schedule #4—Request for Amendment | | | | |
|---|--|--|--|--|
| County-district number or vendor ID: Amendment # (for amendments only): | | | | |
| Part 1: Submitting an Amendment | | | | |

This schedule is used to amend a grant application that has been approved by TEA and issued a Notice of Grant Award (NOGA). **Do not submit this schedule with the original grant application.** Refer to the instructions to this schedule for information on what schedules must be submitted with an amendment:

An amendment may be submitted by mail *or* by fax. Do not submit the same amendment by both methods. Amendments submitted via email will not be accepted.

If the amendment is mailed, submit three copies of each schedule pertinent to the amendment to the following address: Document Control Center, Grants Administration Division, Texas Education Agency, 1701 N. Congress Ave., Austin, TX 78701-1494.

If the amendment is faxed, submit one copy of each schedule pertinent to the amendment to either of the following fax numbers: (512) 463-9811 or (512) 463-9564.

The last day to submit an amendment to TEA is listed on the <u>TEA Grant Opportunities</u> page. An amendment is effective on the day TEA receives it in substantially approvable form. All amendments are subject to review and approval by TEA.

Part 2: When an Amendment Is Required

For all grants, regardless of dollar amount, prior written approval is required to make certain changes to the application. Refer to the "When to Amend the Application" guidance posted in the Amendment Submission Guidance section of the Grants Administration Division Administering a Grant page to determine when an amendment is required for this grant. Use that guidance to complete Part 3 and Part 4 of this schedule.

Schedule #5—Program Executive Summary

County-district number or vendor ID: 020902

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary. Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

With the effects of Hurricane Harvey pushing our homless student population to 10%, a part-time case worker is needed in order to help meet the emergency basic needs of students at Angleton ISD and in order to free the licensed social workers' time for necessary followup and counseling work that is vital to serving homeless students and their families. Evidence shows that students experiencing homelessness do not perform as well academically as their housed counterparts, and youth homelessness is associated with higher rates of truancy and lower rates of high school graduation (Perlman and Willard, 2013). Our social workers need to be able to monitor these important academic areas for students, while resting assured that the basic items and services that students and families need on an emergency basis are provided.

Angleton ISD currently employs three social workers who assist students identified as homeless as well as the rest of the student population identified with needs. Prior to the fall of 2017, the district had a small storage space of emergency supplies (food, clothing, toiletries, school supplies) it could offer to students in emergency situations, including homelessness. Then Hurricane Harvey's flood waters hit our community, impacting many of our students and their families. Donations flooded into the school district from both inside the community and from across the country. We were able to convert unused classrooms at our alternative campus into an emergency supplies warehouse that continues to be used today, for both families continuing to recover from Hurricane Harvey and also students and their families who experience homelessness for other reasons.

The warehouse is not staffed; social workers come in to gather supplies when requests come in for affected students. Because no one is assigned to keep the warehouse stocked and organized, the social workers often spend more time than necessary finding needed items for students and their families. The social workers are also forced to interrupt their student monitoring and followup duties at campuses in order to fill these emergency needs.

Sometimes there is a delay in time between when a student is identified as homeless and when the social worker can alert the Food Service department about change in status. This can mean that families identified as homeless can be put under the unnecessary, further stress of accumulating debts on their student food service accounts. Having a case worker would help speed the identification of homeless students and shorten the communication period between identification and being placed on free breakfast/lunch status (and clearing student food service debts).

Other important tasks that the social workers are often unable to perform are helping families identified as homeless with medical and mental health appointments as well as job search assistance. A case worker would be able to assist families in referrals and securing appointments for medical and mental health appointments. Most homeless youth experience servious physical or mental health issues (Murphy, 2014). And children who are homeless, as a group, are more likely than their stably housed peers to experience physical, mental, and behavioral problems, and to have experienced various psychosocial risks including exposure to violence and lack of access to medical care (Buckner, 2008; Child Trends, 2013). And while making appointments is good, families often need followup on the appointment and reminders about follow-up care. Providers have reported that missing follow-up appointments is a frequent occurrence with those experiencing homelessness, which can be due to many factors; people who are experiencing homelessness have competing priorities and keeping health care appointments may not be at the top of their list (National Health Care for the Homeless Council, 2016).

Assistance in securing stable employment is also vital for homeless students and their families. The National Health Care of the Homeless Council has stated that having staff or teams of staff dedicated to employment services is ideal (2016). Having a staff person designated to assist students or family members in filling out applications or providing resumes or other required documents may mean the difference of whether that individual secures employment and steady income or not.

Again, health care or employment needs are not seen as immediate and are often not prioritized, even though they are vitally important to the health and well-being of students and families. And when those experiencing homelessness are asked to wait, they often view that as a message of their self-worth rather than a common life expectation. For example, whereas most people expect and learn to tolerate long waits for service at the emergency room, homeless youth interviewed were unable to wait because they interpreted being forced to wait as a manifestation of their lack of importance to society (Mirick & Dean, 2010).

Schedule #5—Program Executive Summary (cont.)

County-district number or vendor ID: 020902

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary. Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

Outcomes that we expect in this grant program include:

- · quicker identification of homeless students
- faster notification of identifications to service providers like Food Service
- more time spent on follow-up and counseling by the social workers, which in turn, will increase academic performance, attendance, behavior and other related academic factors
- quicker response times in delivering emergency supplies to homeless families
- more efficient methods of filling emergency supply requests
- more students or their family members getting necessary medical and mental health appointments
- · better compliance from students or their family members in attending appointments or follow-up visits
- more students or their family members receiving assistance in applying for jobs, thereby increasing stable employment among families

| In short, Angleton ISD has a good foundation built for supporting homeless students and their families. But in the |
|---|
| aftermath of Hurricane Harvey, we just need help in getting supplies and services to students and their families in a |
| timely manner while still providing the counseling and academic monitoring that students also need and deserve. |

| Percentage limit on administrative costs established for the program (8%): | | | | × .08 | |
| | ound down to the nearest whole dollar. eximum amount allowable for administra | | | costs: | \$2,040.00 |

NOTE: Indirect costs are calculated and reimbursed based on actual expenditures when reported in the expenditure reporting system, regardless of the amount budgeted and approved in the grant application. If indirect costs are claimed, they are part of the total grant award amount. They are not in addition to the grant award amount.

Indirect costs are not required to be budgeted in the grant application in order to be charged to the grant. Do not submit an amendment solely for the purpose of budgeting indirect costs.

If selected for a competitive grant, your award amount will be the lesser of the grand total of budgeted costs as stated on this schedule (the box with the bold outline), or the sum of all line items listed on this schedule, or the maximum allowable award amount. TEA is not responsible for math errors.

Schedule #13—Needs Assessment

County-district number or vendor ID: 020902

Amendment # (for amendments only):

Part 1: Process Description. A needs assessment is a systematic process for identifying and prioritizing needs, with "need" defined as the difference between current achievement and desired outcome or required accomplishment. Describe your needs assessment process, including a description of how needs are prioritized. If this application is for a district level grant that will only serve specific campuses, list the name of the campus(es) to be served and why they were selected. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

A needs assessment evaluation was conducted among the district's three social workers, the Director of Academic Services (who oversees the services to students identified as homeless) and the Director of Student Services (who supervises the social workers and campus counselors). These five people were asked to list the top needs for serving homeless students in our school district and to prioritize them, giving a rationale for their prioritization. The three social workers were also encouraged to poll the students and families identified as homeless for their input on district needs. The community outreach manager for our county's United Way was also contacted for her input.

The needs communicated included:

- documenting homeless status and quickly communicating status to food service personnel this allows staff to quickly place identified students on free lunch/breakfast, remove any food service fines placed on their accounts, and determine the need for other services.
- 2. promptly providing emergency food, clothing, school supplies and toiletry items to students/families identified as homeless Angleton ISD currently has an emergency supplies warehouse with food, clothing, school supplies and toiletries for needy students, including those identified as homeless. However, with only 3 social workers for 9 campuses, it is hard for them to provide these needed items in a timely manner.
- 3. maintaining supplies of emergency food, clothing, school supplies and toiletry items for students and families Because our 3 social workers are busy working with students at the 9 campuses, it is difficult for them to take time out of their busy schedules to keep the emergency supply warehouse fully stocked and organized so that items can be quickly found and distributed.
- 4. assisting students and their families identified as homeless in making medical and mental health appointments (including transportation needs) Many students and families identified as homes struggle with issues related to accessing medical and mental health appointments. They often need help in getting referrals to medical and mental health service agencies and setting up appointments. Often they also need someone to follow up with them to see if their needs were met or if other services are needed. In our rural school district, they often also need assistance in making transportation arrangements.
- 5. assisting families identified as homeless with job searches, including completing online job applications
 Often, our unaccompanied students and families identified as homeless need assistance in locating stable
 employment or struggle with employment issues. Some do not have or have been taught basic job seeking
 skills. They need someone with a list of available community jobs or referral agencies as well as assistance in
 completing applications in order to overcome issues related to homelessness.

These needs were prioritized by our social workers based on the urgency and importance of the needs.

These five needs have a common thread: they are needs that are important and urgent but force our current three social workers to pause from their necessary counseling and monitoring work with students on campus. They are needs that can be met by someone who does not necessarily need the qualifications and licensure of a social worker, but they are nonetheless important needs.

Schedule #13—Needs Assessment (cont.)

County-district number or vendor ID: 020902

Amendment # (for amendments only):

Part 2: Alignment with Grant Goals and Objectives. List your top five needs, in rank order of assigned priority.

Describe how those needs would be effectively addressed by implementation of this grant program. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

| # | Identified Need | How Implemented Grant Program Would Address |
|----|--|--|
| 1, | Documenting homeless status and quickly communicating status to food service personnel | Having a part-time case worker would help the social workers quickly place identified students on the free/reduced food program, remove any associated fines on student food service accounts and determine the need for another services. The case worker would assist us in doing this in a more timely manner and would allow the licensed social workers to focus on monitoring and counseling homeless students. |
| 2. | Promptly providing emergency food, clothing, school supplies and toiletry items to students/families identified as homeless | A part-time case worker would allow us to provide prompt emergency services from our emergency supply storage for homeless students and families throughout the district. The social workers cannot focus on the counseling and monitoring needs of students on campuses if they are also working to determine the needs of homeless students/families, sorting donations, and preparing items for delivery to families. |
| 3. | Maintaining supplies of emergency food, clothing, school supplies and toiletry items for students and families | In order to promply provide for homeless students and families in need, our supplies of emergency food, clothing, school supplies and toiletry items must be kept stocked and maintained in an orderly fashion. If the storage is not kept stocked or is unorganized, this will slow down the delivery of needed items to students and families. |
| 4. | Assisting students and their families identified as homeless in making medical and mental health appointments (including transportation needs) | A part-time case worker would allow for follow-up with students and families who struggle with issues related to accessing medical / mental health appointments. The current social workers also provide mental health-related services on the campuses, but they are often called on for emergencies and other situations not directly associated with the homeless population. Dedicated personnel could ensure that appointments are made and kept by families. |
| 5. | Assisting unaccompanied students and families identified as homeless with job searches, including completing online job applications | A part-time case worker could assist unaccompanied students and homeless families who need assistance locating stable employment. Many of our unaccompanied students have never applied for employment before. And having stable employment is vital for families to escape the cycles of poverty and homelessness. |

Schedule #14—Management Plan (cont.)

County-district number or vendor ID: 020902

Amendment # (for amendments only):

Part 3: Feedback and Continuous Improvement. Describe the process and procedures your organization currently has in place for monitoring the attainment of goals and objectives. Include a description of how the plan for attaining goals and objectives is adjusted when necessary and how changes are communicated to administrative staff, teachers, students, parents, and members of the community. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Angleton ISD has a continuous improvement process that begins every year with the campus and district improvement plans. These plans are drawn up at the campus level by the Campus Improvement Committees (consisting of staff, leadership and parents) and at the district level by the District Advisory Committee (consisting of teachers, administrators, community members and local business representatives). These groups not only help write the plans but also assist in monitoring and evaluating progress made on the plans.

The plans address not only academic test scores, but also extra-curricular, social-emotional and community goals as well.

When adjustments are necessary in order to attain these set goals, the district and/or campus leadership will call together the group stakeholders for feedback. Many times, surveys are also sent out to staff, students, parents and the community for their feedback. After changes are made by the group, they are communicated to stakeholders through the district's website, through newsletters and other written communication, as well as through social media channels. Time is always given at each monthly Board of Trustees meeting for community feedback.

Part 4: Sustainability and Commitment. Describe any ongoing, existing efforts that are similar or related to the planned project. How will you demonstrate a commitment to education for all homeless children and unaccompanied youth? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Currently, three full-time, licensed social workers are employed by Angleton ISD to service students in all 9 campuses. They currently serve students and families identified as homeless by providing for emergency needs and making referrals to social service agencies and shelters. They also provide supplies from the district's emergency supply warehouse. The social workers partner with the campus counselors to monitor homeless students for changes in situations and needs, as well as data such as attendance, grades, and testing waivers. The social workers also work at the high school level to make sure students have the mainstays of high school life that may not seem like necessities: class pictures, prom attire, graduation cap and gown, etc.

The proposed part-time case worker would work alongside them, making their jobs easier and allowing them to do work required by a licensed social worker instead of case work that can be done by a non-licensed employee. The social workers would continue to do the followup work and data gathering, while the case worker would work on documentation, meeting immediate needs, help with referral services and employment needs.

Having a case worker assist the social workers would send a message to homeless students and families that they are valued, no matter if their situation or need is immediate or not. Many times the immediate takes precedent over the important because of the emergency nature of the immediate. But having a case worker assist with pressing needs can allow the social workers to do the important work of doing followup and meeting the less pressing but still vital needs of homeless students.

| 5. | assistance will be monitored | 2. | 90% of assistance requests will be addressed within 3 school days | |
| | | 3. | 80% or more of families surveyed will communicate satisfaction | |

Part 2: Data Collection and Problem Correction. Describe the processes for collecting data that are included in the evaluation design, including program-level data such as program activities and the number of participants served, and student-level academic data, including achievement results and attendance data. How are problems with project delivery to be identified and corrected throughout the project? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Documentation logs (including date and number of participants served) will be kept of student identification, food service notification, supply requests/deliveries, medical/mental health assistance requests, and employment application assistance requests. The case worker and his/her supervisor will be responsible for making sure these documentation logs are kept accurate and up to date.

Surveys will be given to affected families to help evaluate their satisfaction in the goods and services they have requested. The case worker's supervisor will be responsible for creating, distributing, collecting and evaluating the surveys (in order to ensure participants can be honest in their responses).

Systems with documented policies and procedures will be developed and adopted by both the case worker and his/her supervisor.

Our social workers will continue to monitor the academic achievement and attendance data of students. Our PEIMS department will also work to produce district-level data of the academic achievement and attendance data of students identified as homeless.

If problems with project delivery arise either through data analysis or observed issues, the stakeholders of the project (case worker, his/her supervisor, social workers, Director of Student Services, Director of Academic Services, community partners and others as needed) will meet to evaluate the issues. The needs assessment will be collaboratively reviewed as well as the activities and evaluation methods. Changes will be made as needed in order to meet the documented needs of the program within the framework of the grant program. As a last resort, grant amendments will be requested.

Schedule #16—Responses to Statutory Requirements (cont.)

County-district number or vendor ID: 020902

Amendment # (for amendments only):

Statutory Requirement 2b: Describe how the proposed use of funds will facilitate the identification, enrollment, and educational success of homeless children and unaccompanied youth. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Funding a part-time case worker position will allow Angleton ISD to identify students as homeless more quickly, efficiently and accurately. The case worker will take other duties away from social workers, who will assist campus counselors in making sure students identified as homeless are enrolled quickly and efficiently into school. A case worker will also assist students and families with vital emergency needs such as food, clothing, toiletries and school supplies, which are vital for students to be successful academically. Because the case worker will also assist families in getting medical and mental health appointments, students would be healthier and less apt to be absent or under-perform in classes. The employment assistance from the caseworker would give students/families the chance to leave the cycles of poverty and homelessness.

Having a case worker will allow the licensed social workers to have more time to do necessary follow up visits with students and campus counselors regarding individual student academic performance, attendance and discipline. Social workers will also be able to spend more time interacting with students and parents/guardians.

Statutory Requirement 2c: Describe the extent to which the applicant will promote the meaningful involvement of parents or guardians of homeless children and the youth in the education of their children. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Our current social workers do a wonderful job encouraging family involvement in the lives of children inside and outside the classroom. The case worker would only add to the family involvement promotion. Because of the case worker's role in contacting families for emergency needs, medical/mental health appointments and employment assistance, the case worker would have a line of communication with parents or guardians that might even be greater than that of the social workers. Because of the help that the case worker has performed for homeless families, the families would be more apt to listen to his/her appeals for family involvement in the education of the children.

Statutory Requirement 2d: Describe the extent to which homeless children and unaccompanied youth will be integrated into the regular education program. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Homeless children and unaccompanied youth are and will be 100 percent integrated into the regular education program (barring limits from an Individualized Education Plan).

Schedule #16—Responses to Statutory Requirements (cont.)

County-district number or vendor ID: 020902

Amendment # (for amendments only):

Statutory Requirement 3a: Describe the process for the development and preparation of the LEA's plan for coordinating services for eligible homeless children and unaccompanied youth using Title I, Part A reservations/set-asides. In the chart, include the actual set-aside for 2016–2017 and the planned set-aside for 2017–2018. For applicants applying as a SSA, provide set-asides for each LEA. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Angleton ISD's plan for coordinating services for homeless children and unaccompanied youth starts as part of the District Improvement Plan. Community partners are contacted and services are coordinated using Project Help, a United Way of Brazoria County program designed specifically to address the needs of homeless people, including students and their families. During the budget process, the set-aside amount is determined based on historical usage.

| | Reservation/Set- Aside Amount | Use/Activities |
|---------------------------------|----------------------------------|---|
| Actual Set-Aside for 2016–2017 | \$250.00 | This reservation/set-aside funding is rarely used because Angleton ISD exhausts campus, district and community resources before using it, per Title I guidelines. |
| Planned Set-Aside for 2017–2018 | \$250.00 | This reservation/set-aside funding is rarely used because Angleton ISD exhausts campus, district and community resources before using it, per Title I guidelines. |

Statutory Requirement 3b: How does the LEA determine its reservation/set-aside amount, how does the LEA assist staff in understanding the LEA's policy/procedure to support homeless students using these funds, and how does the LEA address the needs of homeless students in the Campus Improvement Plan? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The reservation/set-aside amount is chosen at its low level based on its historic lack of use.

The Director of Academic Services, who administers Title I programming, reminds the campuses about the funding during budget time so they can be reminded that it is there if it is needed (and that it is considered funding of last resort). Currently, the needs of students and families identified as homeless are being met by a combination of other district funding, campus activity funds, donations, and community resources.

The needs of homeless students are addressed in the District Improvement Plan as three strategies of Goal 4: We will create flexible and innovative solutions tailored to the individual needs of all student population groups with documented achievement gaps to improve performance, close gaps and increase opportunities for success. Strategy 3 is to "increase partnership opportunities with community organizations to assist in targeting/meeting needs of families." Strategy 5 is to "connect students and families to resources that strengthen and support students' learning and well-being." And Strategy 7 is to "provide training to appropriate campus staff to ensure that homeless students are identified and provided appropriate services."

Schedule #17—Responses to TEA Program Requirements

County-district number or vendor ID: 020902

Amendment # (for amendments only):

TEA Program Requirement 1: Describe the process or procedures that are utilized to identify and/or enroll homeless students and unaccompanied youth who: (a) are entering and/or returning to their schools from summer or holiday break, (b) become homeless after the school year has started, (c) are not currently enrolled or attending school, and (d) are eligible for early childhood and/or prekindergarten programs. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

- A. At the beginning of each school year, families complete a Student Residency Questionnaire for each student. Staff and social workers review these and determine which students/families qualify based on their reported living situations. After breaks, we depend on counselors, registrars, school staff and social workers to notify the Homeless Liaison when students have a change in their living situation (i.e. word of mouth, student report, family report). Many times it is the classroom teacher who will find out first from the student that they are staying in a motel, for example.
- B. We ask that families update their information when they move. Registrars and PEIMS staff will often notify the Homeless Liaison when a family presents itself as living in temporary situations. The staff, including classroom teachers, are very good about notifying the three district social workers when they learn that students' families have a temporary living situation or have suffered a tragedy usch as flooding, fire, loss of home or loss of income. The social workers will then contact the families to follow up and provide needed services.
- C. In order to address homeless students not currently enrolled or attending school, we have McKinney Vento information posted at each campus and at administrative offices. The social workers are active in community events, such as volunteering at local youth organizations, and offer to provide support and information. Also, at the time of enrollment, families are required to complete a Family Survey where information on "out of school youth" is requested.
- D. Angleton ISD posts information regarding pre-kindergarten and kindergarten enrollment in both Spanish and English. Information is also distributed via social media and on the district's website. Local Early Childhood Intervention partner BACH does a wonderful job transitioning ECI students into early childhood programs at AISD.

Schedule #17—Responses to TEA Program Requirements (cont.)

County-district number or vendor ID: 020902

Amendment # (for amendments only):

TEA Program Requirement 3: Describe how early interventions and ongoing progress monitoring will be implemented to address the academic needs of homeless children and youth. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Because the case worker would be assigned to meet emergency and basic needs of homeless students and their families, the three district social workers would be better able (with fewer emergency interruptions) to monitor student academic progress and follow up on early interventions. This monitoring would be done with help of the campus counselors.

Data to be monitored would include: 4-year cohort graduation rate, graduation rates of all homeless students (current cohort, continuers and early graduates), college and career readiness programs and support services, attendance, and promotion. The social workers would also be able to talk with students, teachers, principals and counselors regarding truancy and discipline interventions, collaboration and coordination of services for students who are receiving other special programs services (ie Special Education, bilingual/ESL, Career and Technology Education, and Gifted and Talented), and Advanced Placement and dual credit course work.

Schedule #17—Responses to TEA Program Requirements (cont.)

County-district number or vendor ID: 020902

Amendment # (for amendments only):

TEA Program Requirement 4: Describe the procedures in place to review, monitor, and implement academic support services to ensure secondary homeless students are on track for grade-level promotion, graduation, and college and career readiness. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Currently, the three district social workers work diligently with the help of campus counselors to monitor the progress of students identified as homeless. This is particularly important for the two social workers assigned to each of our two secondary school campuses.

These two social workers, with the help of campus counselors, review the students' academic records, and where appropriate, recommend the district's online credit recovery program, Edgenuity. Together the social worker and counselor ensure that the student is enrolled in the correct course and that the guidelines for credit recovery are met or waived based on circumstances. The social workers will review transcripts to ensure the appropriate credits are earned for graduation.

They also check on students regularly for attendance, truancy and discipline issues, intervening when necessary. The two social workers also look at grades and credits while also talking with students and teachers in order to offer early interventions when necessary. The social workers also check on assessment scores, and they assist in getting students waivers for paid testing, such as SAT and ACT.

They also work with counselors to create and evaluate graduation plans and post-secondary transition plans. They offer assistance with college applications and financial aid assistance forms. The social workers also provide the needed documentation for college admission. For students not attending college after high school, they assist with job searches and connect with former students in the workforce.
